DRAFT/Sample

March 20, 1997

The Honorable Willie Brown, Mayor
City & County of San Francisco
City Hall, 401 Van Ness Avenue
San Francisco, CA 9410x

Dear Mayor Brown:

As you are probably aware, the state legislature has asked MTC to develop a consensus recommendation from the Bay Area on the design and possible additional features for a new eastern span of the San Francisco-Oakland Bay Bridge. Our recommendations are to be submitted to the Governor and the legislature in August.

To accomplish this assignment, MTC has appointed a seven-member task force, which I am chairing and which has scheduled public meetings in Alameda, Contra Costa, Solano and San Francisco counties during the next two months. MTC also is offering other means of public involvement, including a telephone comment line and an e-mail address. Attached for your information is a fact sheet that details the public participation process, including the dates, times and places of the meeting dates.

Because of the importance of a new Bay Bridge design to all Bay Area residents, I urge you to attend one of our meetings or give us the benefit of your views through the other available avenues and encourage your constituents to do likewise.

We look forward to hearing from you.

Sincerely,

Mary King, Chair
Bay Bridge Design Task Force

SAN FRANCISCO-OAKLAND BAY BRIDGE DESIGN TASK FORCE

Members:	Mary King (Chair)	representing Alameda County
MTC	Sharon Brown	representing cities of Contra Costa County
Commissioners	Mark DeSaulnier	representing Contra Costa County
	Elihu Harris	representing cities of Alameda County
	Tom Hsieh	representing San Francisco County
	Jon Rubin	representing city of San Francisco
	Angelo Siracusa	representing Bay Conservation & Development Commission

- Purpose:** To develop a consensus recommendation on a design option for a new eastern span of the Bay Bridge.
- Caltrans has proposed two options: a skyway viaduct and a twin-tower cable-stay bridge. The Task Force also will consider other options, such as a single-tower cable-stay bridge.
 - All design options will be evaluated by a team of cost reviewers, engineers, seismic specialists and design experts. All reviews are scheduled to be completed by June 1997.

- To recommend any additional features that might be included as part of the bridge project.
- Additional features include cable towers, bike lanes or other design elements.
 - The cost of additional features would not be borne by the state.

- Public Participation Process:** The Task Force will actively solicit public advice and opinions on design options. Four separate avenues are available to the public to communicate their views.
- **Public meetings** will be held in Alameda, Contra Costa, Solano and San Francisco counties. (See location, date and time of each meeting on reverse side.)
 - **Telephone Comment Line:** Call the regional transportation number — 817-1717 — and press option 7. (No area code is needed to make this call.)
 - **The Internet.** Two options are available:
 1. Send an e-mail directly to Caltrans at: sfobb@trmx3.dot.ca.gov.
 2. Go to Caltrans' Web site at: <http://www.dot.ca.gov/dist4/>. Comment opportunities are available at the bottom of the special "San Francisco-Oakland Bay Bridge Retrofit Replacement" page.
 - **Mail:** Write to Commissioner Mary King, c/o MTC, 101 Eighth Street, Oakland 94607.
